HISTORY & MISSION

Hatsuta's history began when we introduced the Dual Bottle Fire Extinguisher in Kyoto to protect people and cultural assets from the threat of fire. This mind set remains as our focus today. Until now and from now on, Hatsuta continues to chase our dream to keep on providing safety to the customer with reliable technology and excellent service.

MAINTENANCE

**Maintenance of Siam Hatsuta,
a manufacturer of fire and
disaster prevention equipment**

HARIS+ HATSUTA Fire Risk Solution

Disaster management professionals (Monthly inspecting at factory)

Fire extinguisher inspection

We will inspect the fire extinguisher of the factory every month. Submit drawings and reports of the location of the fire extinguisher.

Fire pump inspection

We check the operation of the fire extinguishing pump every month.

Fire risk assessment

Provide a fire risk assessment services by a professional. Identify any risks and review.

Disaster Prevention Seminar

The purpose was to raise disaster prevention and safety awareness according to the desired content. We will hold a seminar for about 1 hour.

Free replacement of fire extinguisher

The fire extinguisher used in the event of a fire will be replaced free of charge.

Free consultation

We will set up a free window where you can consult about disaster prevention at any time.

* All submitted reports will be prepared in both Japanese and Thai languages.
